- Microfinance software
- Programming with Object Oriented programs, such as Visual Basic 6.0 (2003 started with .NET)
- Client/Server application development and design using Visual Basic 6.0
- Database design, implementation, administration and maintenance using the Microsoft SQL Server
- Hardware Builds
- Stuff Management
- System Audits
- Information Security
- Hardware maintenance
- Microsoft Certified Solutions Developer
- Microsoft Certified System Administrator

Technical Skills

- Hardware/OS: Windows, Windows servers
- Software: MS Visual Basic 6.0/.NET, Transact SQL, MSVBA, HTML
- Databases: MS SQL Server, MS Access, IBM DB2
- Networking: Microsoft Network with Windows Servers

Professional Experience

IT Manager for [MicroFinS - Microfinance Organization](#), with UNHCR as one of Donors (2002-Present)

My role is to project information system, administer and maintain several databases, develop several applications (for salaries, bookkeeping, human resources), provide assistance in the creation of various reports, hardware and network project, design and maintenance, troubleshooting and installation. (System and database Engineer/Administrator & Programmer).

I was involved in two MFI software suites:

- [Kredits](#) (on MS access and later MS SQL Server databases; installation, administration, maintenance; building custom modules; making custom reports)
- [ASPEKT microfinance software](#) (web application on MS SQL Server database; analizing bussiness processes, making demands for software development, data migration, installation, administration, maintenance; making custom reports)

I also develop Web sites at www.microfins.org.rs, www.microfins-dbs.co.rs.

Used: Visual Basic 6.0 for software development, MS SQL Server 2015 and MS Access for database design, MS Excell for reports.

Network: Windows 2008/2012 Servers, Windows XP/7 workstations, wireles and local area network, Internet.

Reference: Braco Saša Dimitrovski, CEO (bracods@microfins.org.rs)

NIT Solutions (2005-present)

As a associate. Projecting and implementing of network environment, programming several applications (Expense tracking system, System for production, warehouse, invoicing, buying analysis and sales)

Used: Visual Basic 6.0 for software development, MS Access for database design, MS Excell for reports.

Network: Windows 2008 Servers, Windows XP/Vista/7 workstations, wireles and local area network, Internet.

Reference: Zoran Novaković, Director (hans@nit-solutions.net)

[Donautrade](#) (2001-present)

As a associate. Projecting and implementing of network, hardware and software environment. Programming several applications (Warehouse, Bookkeeping, Invoicing).

Used: Visual Basic 6.0 for software development, MS Access for database design, MS Excell for reports.

Network: Windows 2008/2012 Servers, Windows XP/7 workstations, wireles and local area network, Internet.

I also develop Web sites at www.donau.rs , www.donautrade.rs, www.svezakamine.rs.

Reference: Radovan Randić, Director (office@donau.rs)

NTE Engineering Beograd (2001-2002)

Participation in developing several two- and three-tier client/server applications. The applications were for the system of parking lots, ticket counter, cash desk.

Used: Visual Basic 6.0 for software development, MS SQL Server 2000 for database design.

Reference: Srđan Vuković, Director (svukovic@sezampro.rs)

Application Software Partner (2001)

Involved in the programming, analysis and design of three-tier client/server application as a associate. The application is for stock market.

Used: Transact SQL for writing Stored Procedures, MS SQL Server 2000 for database design.

Reference: Zvonko Milosavljević, Director (asp@eunet.rs)

AD Jugopetrol Kotor (1996-2001)

Participation in a team whose job was to create an informative center for that company. Our job was to install, test and edit software, project, design and prepare the network and hardware and make web site and intranet, of course maintenance also.

We worked on the programming language »IAF«, that was generated from C++ and have a syntax like VBA and some other programming languages, like Visual Basic, FoxPro, MS Access, Transact SQL. Our job was also to project, create and maintain databases on the SQL Server 2000.

Reference: Vasko Petrović, Director of IT sector (vasko.petrovic@jugopetrol.me)

(1996-Present)

I also developed applications for a number of Clients in Visual Basic on MS Access databases :

- [Pamex](#), Bostek

Reference: Slobodan, Director (office@pamex.me)

- [Cigre](#)

Reference: Julija Spajić, Director (office@cigresrbija.rs)

- Farman

Reference: Damir Mandić, Director (damirm@me)

- Dom Zdravlja Kotor

Reference: Mira Pavićević, Accountant (bagzi7@yahoo.com)

- Ciclodrom

Reference: Aleksandar Bogojević, Director (ciclodrom@hotmail.com)

- SpajicCo

Reference: Darko Spajić, Director (spajicco@eunet.rs)

- Krypton

Reference: Dejan Vasiljević, Director (office@krypton.co.rs)

- Etno Salon

Reference: Nemanja Randić, Director (randja@gmail.com)

...
